Kiang Wu Nursing College of Macau (KWNC), a nursing education institution which has the longest history in this city, was founded in 1923 and it is affiliated to Kiang Wu Hospital Charitable Association (KWHCA). The College has inherited the spirit of Sun Yat-sen and Kiang Wu, which is also the educational philosophy of “From Personhood to Benevolence”, valuing the care for human being and diversified education. KWNC is committed to cultivating students to be professional nursing talents who strive for both competence and integrity as the College is not only cultivating qualified nursing specialists, but also embracing the comprehensive education for every student. Throughout the history of more than 90 years, KWNC has been keeping pace with time and pursuing a better change, and has successfully developed the College from an institution of secondary education into one of higher education and as a result brought Macao’s nursing education to a new height.

The curriculum of the College centres human on nursing care, emphasizes benevolence, conduct, knowledge, talent, lifelong learning, scientific thinking and contribution etc. Graduates from KWNC will master professional skills and knowledge, and will broaden their development prospects. Their involving domains will not be limited to hospitals, communities or schools, they can continue to study for an advanced degree at prestigious education institutions anywhere in the world.

The future expectations, aside from continuous cultivation of the high-quality nursing professionals, the College spares no efforts to promote the nursing education to a higher level, establishes a multi-professional and diversified health care curriculum and provides support for the long-term care service of Macao through cultivating talents and conducting scientific research.
